

CENTENARY WOOD CAMP SITE

DIRECTIONS

How to get to the Centenary Wood site from the junction A4/A39 (The Globe Public House roundabout)

It is recommended, as the lanes are very narrow and with few passing places, that you use a "one way" system, arriving via Newton St Loe and departing via Wilmington.

Take the road (marked Coombe Down etc) to the LEFT of The Globe Public House and follow it up the hill. After a short distance IGNORE the right hand turn to Newton St Loe. At the top of the hill the road will bear slightly to the left and there is a junction to the RIGHT (sign posted "Clays End" on the left hand side of the road) and with an advertisement board for Bed and Breakfast at Pennsylvania Farm on your right at the side of the turning. TURN RIGHT into this lane.

After a shortish distance you will reach a "T" junction with a further advertisement board for Bed and Breakfast at the farm. TURN LEFT.

After a while you will see another advertisement for Bed and Breakfast at the farm (which is reassuring as by now you will think that you are lost!).

When you get to the farm (which is on your right) keep going up the lane!!!!

The entrance to the site is further up the same lane and on the LEFT – just before a right angled bend in the road. (The road bears to the left: there is a bridleway to the right which will allow you to turn around if you have overshot: it is very potholed so don't drive further than the length of your vehicle before reversing)

WARNING – the gate opens OUTWARDS.

NOTE: the lanes get narrower as you move away from the main road and passing places are rare. Watch out for the wildlife – mainly squirrels and pheasant but sometimes rabbits and ducks as well.
